DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0007]

**Proposed Information Collection; Mine Accident, Injury, and
Illness Report and Quarterly Mine Employment
and Coal Production Report (MSHA Forms 7000-1 and 7000-2)**

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A). This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and

Health Administration (MSHA) is soliciting comments on the information collection for Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report (MSHA Forms 7000-1 and 7000-2), 30 CFR 50.10, 50.11, 50.20, 50.30.

DATES: All comments must be received on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:*
<http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number [MSHA-2013-0042].
- *Regular Mail:* Send comments to MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939.
- *Hand Delivery:* MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Acting Director, Office of Standards, Regulations, and Variances,

MSHA, at MSHA.information.collections@dol.gov (e-mail);
202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, Section 101 (a) of the Mine Act, 30 U.S.C. 811 authorizes the Secretary to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

The reporting and recordkeeping provisions in 30 CFR part 50, Notification, Investigation, Reports and Records of Accidents, Injuries and Illnesses, Employment and Coal Production in Mines, are essential elements in MSHA's Congressional mandate to reduce work-related injuries and illnesses among the nation's miners.

Section 50.10 requires mine operators and independent contractors to immediately notify MSHA in the event of an accident. This immediate notification is critical to MSHA's timely investigation and assessment of the cause of the accident.

Section 50.11 requires that the mine operator or independent contractor investigate each accident and occupational injury and prepare a report. The mine operator or independent contractor may not use MSHA Form 7000-1 as the investigation report, except if the operator or contractor employs fewer than 20 miners and the injury is not related to an accident.

Section 50.20 requires mine operators and independent contractors to report each accident, injury, and illness to MSHA on Form 7000-1 within 10 working days after an accident or injury has occurred or an occupational illness has been diagnosed. The use of MSHA Form 7000-1 provides for uniform information gathering across the mining industry.

Section 50.30 requires that all mine operators and independent contractors working on mine property report employment to MSHA quarterly on Form 7000-2, and that coal mine operators and independent contractors also report coal production.

Accident, injury, and illness data, when correlated with employment and production data, provide information that allows MSHA to improve its safety and health enforcement programs, focus its education and training efforts, and establish priorities for its technical assistance activities in mine safety and health. Maintaining a current database allows MSHA to identify and direct increased attention to those mines, industry segments, and geographical areas where hazardous trends are developing. This could not be done effectively using historical data. The information collected under Part 50 is the most comprehensive and reliable occupational data available concerning the mining industry.

Section 103(d) of the Federal Mine Safety and Health Act of 1977 (Mine Act) mandates that each accident be investigated by the operator to determine the cause and means of preventing a recurrence. Records of such accidents and investigations must be kept and made available to the Secretary or his authorized representative and the appropriate State agency. Section 103(h) requires operators to keep any records and make any reports that are reasonably necessary for MSHA to perform its duties under the Mine Act. Section 103(j) requires operators to notify MSHA of the occurrence of an accident and to take

appropriate measures to preserve any evidence that would assist in the investigation into the causes of the accident.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report (MSHA Forms 7000-1 and 7000-2), 30 CFR 50.10, 50.11, 50.20, 50.30. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other

forms of information technology, e.g., permitting electronic submission of responses.

This information collection request is available on <http://www.msha.gov/regs/fedreg/informationcollection/informationcollection.asp>. The information collection request will be available on MSHA's website and on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

Questions about the information collection requirements may be directed to the person listed in the FOR FURTHER INFORMATION section of this notice.

III. Current Actions

This request for collection of information contains provisions for Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report (MSHA Forms 7000-1 and 7000-2) 30 CFR 50.10, 50.11, 50.20, 50.30. MSHA has updated the data in respect to the number

of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection

Agency: Mine Safety and Health Administration

OMB Number: 1219-0007

Affected Public: Business or other for-profit

Number of Respondents: 29,910

Frequency: On occasion

Number of Responses: 132,179

Annual Burden Hours: 180,535 hours

Annual Respondent or Recordkeeper Cost: \$5,706

MSHA Forms: MSHA Form 7000-1, Mine Accident, Injury and Illness Report; MSHA Form 7000-2, Quarterly Mine Employment and Coal Mine Production Report

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.
